WELCOME TO SKILLFUL PRINTING

INTRODUCTION

In past days, purpose of packaging was to protect, transport and preserve products. The only thing to consider was the size, material, and it should therefore be relatively durable. Nowadays the packaging of a product is equally as important as the product inside, and aside from the basic role of packaging (durability, protection...), other aspects such as visual, sustainability, touch, and even smells have become essential aspects of consumer products trade strategies and, more importantly, the only thing responsibile for “dressing” the product and ensuring it appears more attractive and stands out from all its competitor’s product.

While being in packagingover the past 3 decades as a factory, we value the importance of packaging, and how to reproduce them right.

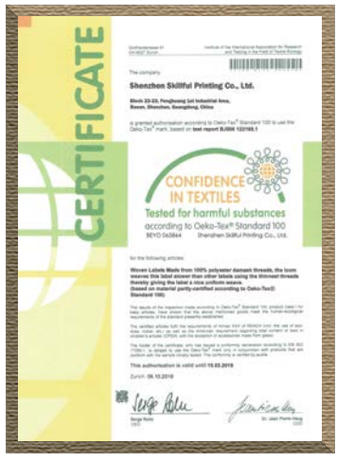
CERTIFICATION AND STANDARDS

DISNEY

Facility and Merchandise Authoriztion (FAMA)

FAMA, Facility and Merchandise Authorization, is the certification authorized by Disney. They are committed to respecting human rights, monitoring the safety and integrity of products, and reducing the environmental footprint of their supply chain.



Oeko-Textile

Woven fabrics made of 100% nylon and 100% polyester, dyed, with water-proof.

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article, i.e. every thread, button and other accessories, has been tested for harmful substances and that the article therefore is harmless for human health. The test is conducted by our independent OEKO-TEX® partner institutes on the basis of our extensive OEKO-TEX® criteria catalog. In the test they take into account numerous regulated and non-regulated substances, which may be harmful to human health. In many cases the limit values for the STANDARD 100 go beyond national and international requirements. The criteria catalog is updated at least once a year and expanded with new scientific knowledge or statutory requirements.

OEKO-TEX® CONFIDENCE IN TEXTILES STANDARD 100

FSC

Forest Stewardship Council Certified

Forest Management Certification gives the public reassurance that timber products originating from a forest are managed in a responsible and sustainable way.

FSC www.fsc.org FSC® C144845 The mark of responsible forestry

ISO 9001:2015

Quality Management System

The amfori Business Social Compliance Initiative (BSCI) is an industry-driven movement that aims to monitor and assess workplace standards across the global supply chain. ... A amfori BSCI audit helps a business monitor its supply chain to ensure that all suppliers are treating workers ethically and legally.

BSCI

Member of BSCI

ISO 9001 is defined as the international standard that specifies requirements for a quality management system (QMS). Organizations use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements. It is the most popular standard in the ISO 9000 series and the only standard in the series to which organizations can certify.

Higg Index

Sustainable Apparel Coalition

Developed by the Sustainable Apparel Coalition, the Higg Index is a suite of tools that enables brands, retailers, and facilities of all sizes — at every stage in their sustainability journey — to accurately measure and score a company or product's sustainability performance. The Higg Index delivers a holistic overview that empowers businesses to make meaningful improvements that protect the well-being of factory workers, local communities, and the environment.

G7

G7 Master Qualification

The G7 Master standard is a facility qualification provided by Idealliance. This qualification demonstrates that a printing facility has calibrated its equipment to G7 requirements. The G7 Master Qualification is intended for physical facilities that offer print, pre-media, or creative services.

ORGANIZED
WORK SPACE

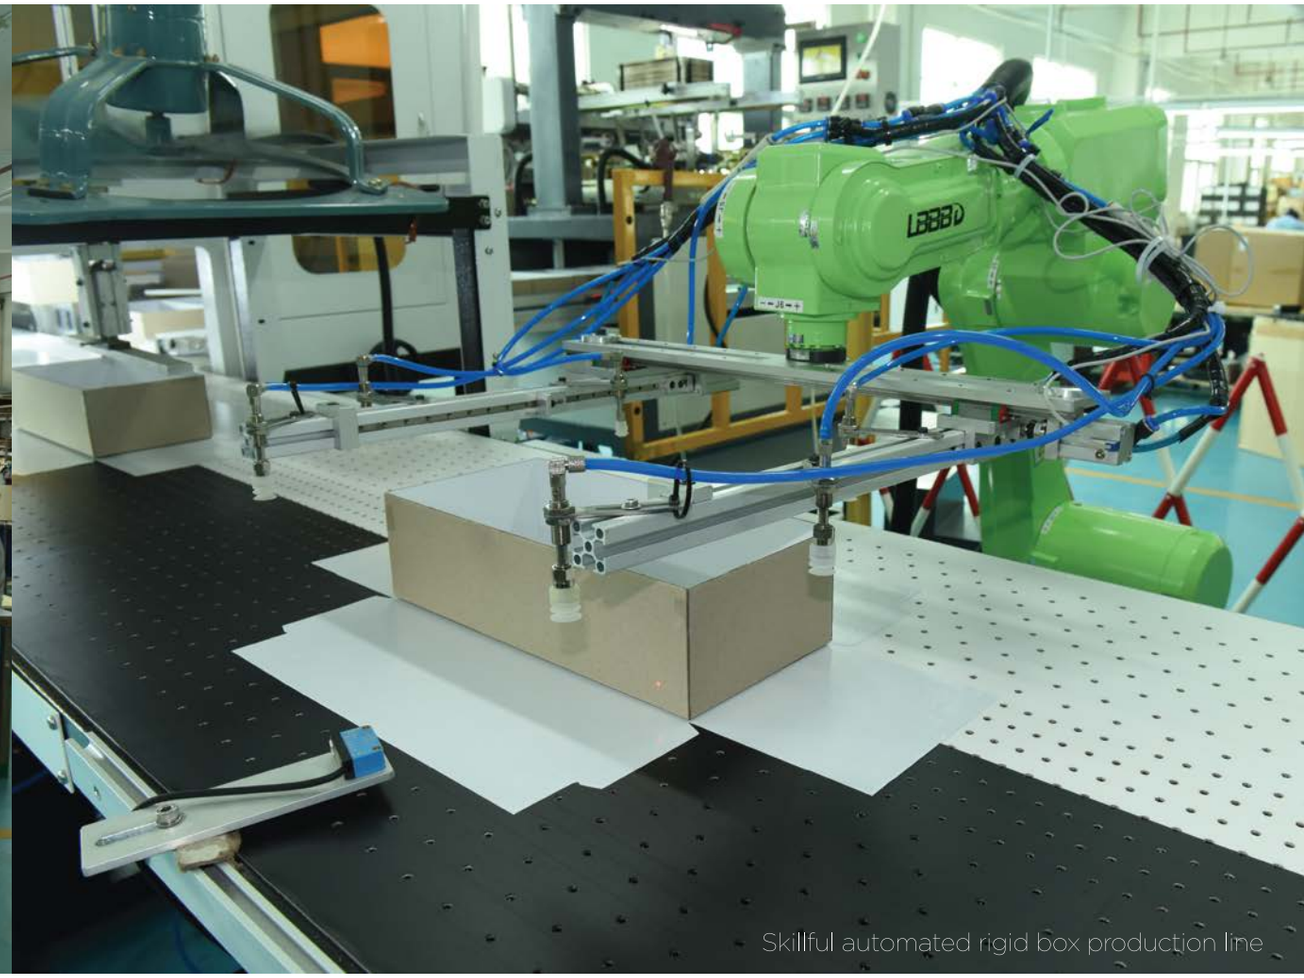
The new Skillful 6 storey factory located at Bao'an, Shenzhen sits on the vain of main transportation highway in South China which is easily accessible to Shenzhen airport, Yian-tian port, and Hong Kong ports. Each of the 6 floor has 25,000 sq feet work space and each floor is carefullly designed to fit in our production chain to allow organizsed and smooth production flow.

TRADITIONAL
PRODUCTION

Skillful Labour Production Team

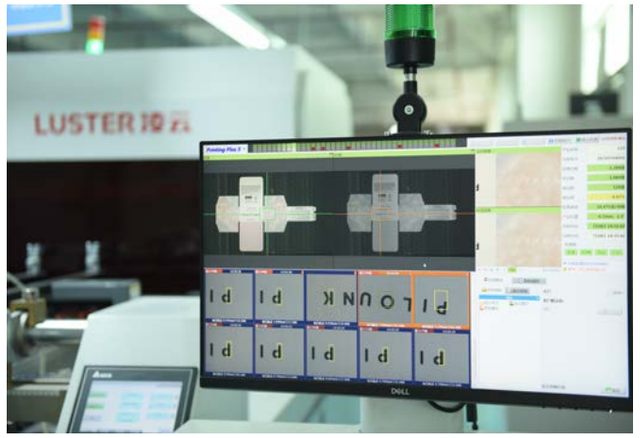
Skillful never gave up on traditional packaging production to provide flexibility for complex packaging. We treat packaging as a piece of art and fine craftmanship is essential.

DIGITAL
AUTOMATION



Skillful automated rigid box production line

Skillful is constantly investing into new automation equipment to improve efficiency, product quality, variaty for packaging products.



PRINT
PRODUCTION

Skillful is equipped with 7 high end ManRoland print presses to accomodate different projects size to optimize cost and wastage.

COLOR
MANAGEMENT

Color Managment system to calibrate, digitally control and measure color efficeintly.

TAG
&
LABELS

Garment Hangtags - UPC Tags - Labels

A tag attached to a garment or other piece of merchandise that includes information about the manufacturer or designer, the fabric or material used, the model number, care instructions, and sometimes the price.

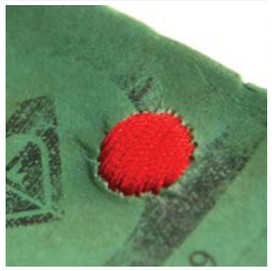
Hangtag marketing is a retail staple and for good reason. Hangtags can attract attention to sales and make the difference between the purchase of one product or another — or even both! Like all marketing materials, hangtag marketing is a science. You have to do it right to get results.

HANGTAGS

Specification

Paper	250gsm + 250gsm Textured paper
Color	6 + 1C
Finishing	Gloss Varnish and Card laminated 2 in 1

Gloss varnish to highlight and enhance the paper texutre, also to preserve printed colors.



HANGTAG

Specification

Paper	300gsm+250gsm+300gsm Kraft paper
Color	CMYK
Finishing	Card Lamination, Dot Stitching, Denim Effect

Dot Stitching in surface on the tag only.
Handcrafted Denim effect on tag edges.

Specification

Paper	300gsm Silky Paper, Custom Color*
Color	2 color Silk Screen
Finishing	Matte Varnishing Coat

Used Silk Screen Print to achieve solid result of the displayed words.
Paper color is custom made by paper factory.

Specification

Paper	300gsm+300gsm 1/S Silver Card

RIGID BOX

Packaging is the wrapping material around a consumer item that serves to contain, identify, describe, protect, display, promote and otherwise make the product marketable and keep it clean.

Packaging has now become an essential part of any company's marketing strategies and, more importantly, the only thing responsible for "dressing" the product and ensuring it appears more attractive and stands out from all its competitor's product.

Packaging Product: Cuffins
Type of Box: Custom Box with Leather pillow insert
Material: 150gsm Artpaper + 1000gsm Greyboard
Color: 2 Pantones
Finishing: Matte Lamination + Texture deboss
Note: Leather pillow insert

Packaging Product: Skin Care
Type of Box: 3 layer Gift Rigid Box + Paper Insert
Material: 150gsm Fancy Paper+ 1000gsm Greyboard +
150gsm Silver Paper
Color: 1 Pantone
Finishing: Hot Stamp Foil + Deboss
Speciality: 3 Layers Gift Box with Silver wrapped wall.

Product: Skincare box set
Type: Slider Drawer Rigid Box
Material: C1S Paper + Rigid Cardboard
Color: SPOT Colors
Finishing: Soft-Touch Lamination

Product: Eyelash box set
Type: Hexagon PR Box
Material: C1S Paper + Rigid Cardboard wrap
Color: 2PMS + CMYK
Finishing: Matte Lamination

Product: Food
Type: Cylinder Box
Material: 157gsm Artpaper +
1000gsm fiberboard
Color: 2 colors
Finishing: Hot Stamp Foil

Product: Food
Type: Octagon Box
Material: 157gsm Artpaper +
1000gsm fiberboard
Color: 2 colors
Finishing: Embossing, Hot Stamp Foil, Matte Lamination

RIGID BOX

Packaging Product: Small Accessories
Type of Box: 1 Piece Tray with PVC Lid
Material: 150gsm Artpaper + 1000gsm Greyboard
Color: 2 Pantones
Finishing: Matte Lamination
Note: PVC lid is printed by Silk Screen Print.

Packaging Product: Small Accessories
Type of Box: 2 Piece Tray
Material: 150gsm Artpaper + 1000gsm Greyboard
Color: 1 Pantone
Finishing: Matte Lamination
Note: Large area hot stamp foil

Packaging Product: Small Accessories
Type of Box: Match Box / Drawer Box Style
Material: 150gsm Artpaper + 1000gsm Greyboard
Color: 1 Pantone
Finishing: Matte Lamination + Hot Stamp Foil
Note: Large area hot stamp foil

COLLAPSIBLE RIGID BOX

Collapsible Rigid Box - Rectangle shape with folding flap and ribbon tap

Collapsible Rigid Box - Triangle tube shape

Collapsible Rigid Box - Square box structure

Folding paper inserts
Material: Paper
Color: Any color

Folding paper insert *Note*

Printable
Able to ship flat
Require folding work during packing

Blister Tray (Thermo-formed plastic tray)
Material: PET, PVC, PP
Color: Black, White and Transparent
*Customize color requires M.O.Q

Blister Case
(Plastic Moulded Insert) *Note*

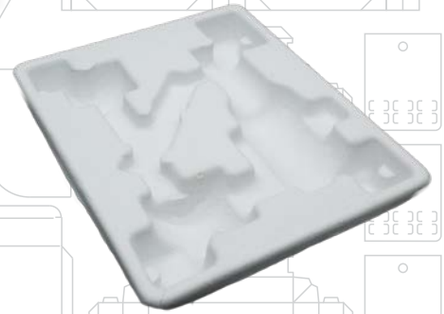
Good product protection
Durable
Easy for product packing

Paper Bulb (Thermo-formed paper tray)
Material: Recycled Paper, Natural Fiber
Types: Dry Press and Wet Press

Dry Press *Note*

Rough texture, where the paper grain is visible

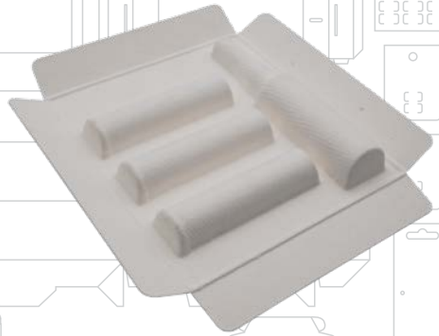
Lower Mould cost



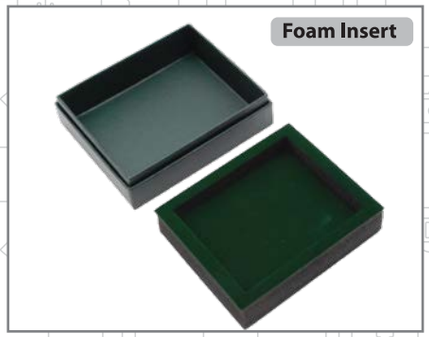
Wet Press *Note*

Smooth surface appearence

Higher mould cost



Soft Inserts
Material: EVA, Foam



Note

Foam Insert

Softer strength compare to EVA
Easy to pack
Good shock asorbent

EVA Insert

Stronger in strength than Foam.
Cleaner look
Higher cost than foam

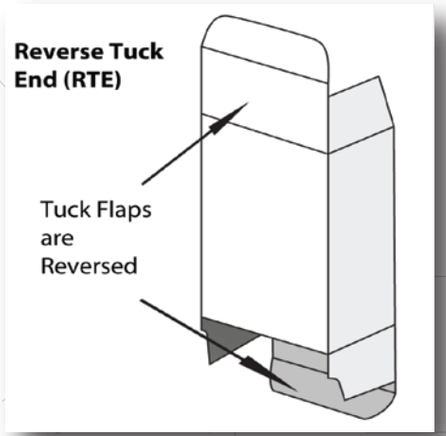
Plain / Construction samples

Corrugated Box white sample

Rigid Box Sample with Inserts

Clamshell Card white samples with Blister samples

Useful Knowledge for Folding Boxes



Reverse Tuck End (RTE)

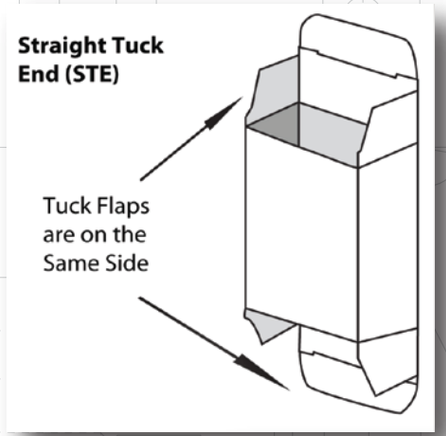
The top closure tucks from the rear to the front, and the bottom closure tucks from the front to the rear.

PROS to RTE Style Box

Cost effective becuase it can run more boxes at one time on the same sized paperboard as opposed to the straight tuck end, and reducing waste.

CONS to RTE Style Box

Not as aesthetically pleasing because of the visible raw edges in the front of the box.



Reverse Tuck End (STE)

The top closure tucks from the rear to the front, and the bottom closure tucks from the front to the rear.

PROS to STE Style Box

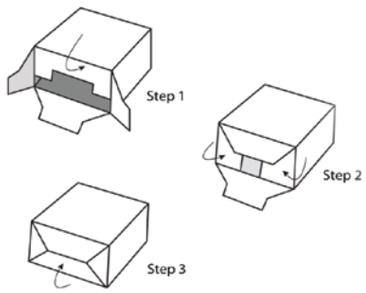
More luxurious than RTE because there are no white raw edges visible on the front of the box.

CONS to STE Style Box

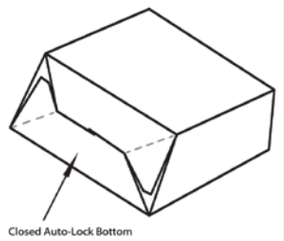
More expensive, less boxes at one time per paperboard sheet.

Box lock types

Snap Lock Bottom



Auto Lock Bottom



Common Type of Folding Carton/Box
